Compact Dehydration Skid for installation at a petrochemical plant with very limited space

Unit: Dehydration skid package

Use: Petrochemical Plant

Location: United States

Requirements: ASME Section VIII Division 1 design build capability

Shown above is a dehydration skid for an isobutane drying system. McGuffey Energy fabricated this skid for a gas treating & design firm. McGuffey worked closely with the customer and the end-user to provide a limited space, custom design. 3D software was integral to the fabrication and allowed walk-thru viewing of the equipment prior to its completion.
