MFT- 40 Barrier Air filter for GE Frame 3 Gas Turbine

Unit: GE Frame 3
Use: Pipeline compression
Location: Rural pipeline station
Requirements: Provide customer with cost efficient filtration

The unit pictured is a barrier type air filter which utilizes two and a half pass weather louvers, forty McGuffey M-80 fiberglass pre-filters, and forty McGuffey XL-60 24"x24"x12" pleated paper final filters. This design allows the personnel to change the low cost pre-filters up to three times to extend the life of the final filter.
