GE Frame 5 Inlet Silencer and Ductwork

GE Frame 5 Exhaust Silencer and Stack

Inlet and Exhaust Systems for 200MW Peaking Plant

Unit: (9) GE Frame 5 Gas Turbines

Use: Peaking Power Plant

Location: Louisiana

Requirements: Reduce noise levels in near-by residential area

Pictured above are the first two units of nine for a power producer's Sterlington, LA power plant. McGuffey Energy designed and built the inlet and exhaust systems, complete with supporting structures. These units were being installed without inlet air filters in view of their intermittent operating schedules.

PROVIDING SERVICE TO:

Pipeline **Power Generation**
Production **Petrochemical**
