GE Frame 7 Exhaust Silencer and Ductwork

GE Frame 7 Exhaust Silencer and Stack

GE Frame 7 Exhaust Systems

Unit: (3) GE Frame 7 Gas Turbines
Use: Power Plant
Location: Coastal
Requirements: Reduce noise levels in residential area

Pictured is one of three units for a power producer. McGuffey Energy designed and built the exhaust systems, complete with catwalks for emissions testing and the supporting structures. These units were fabricated by McGuffey Energy and later installed by our turbine services group.

PROVIDING SERVICE TO:

Pipeline **Power Generation**
Production **Petrochemical**
