This project was for the design, fabrication, removal and installation of a Westinghouse 251G Inlet section (Duct, Transition, Silencer, Elbow & Expansion joint) and Exhaust Section (Transition, Plenum, Structural support base, Silencer, Stack & Expansion Joint) at Beech Island, SC. Material for the shell, flanges & supports are A36 Carbon Steel except for the exhaust liner and exhaust silencer panels which are 409SS.

The project was completed Accident-free; included a #2 bearing repair; and was completed well-below the projected time
